

Certificate in

Healthcare Fraud & Abuse

in the Application
of Medical Coding

ONLINE

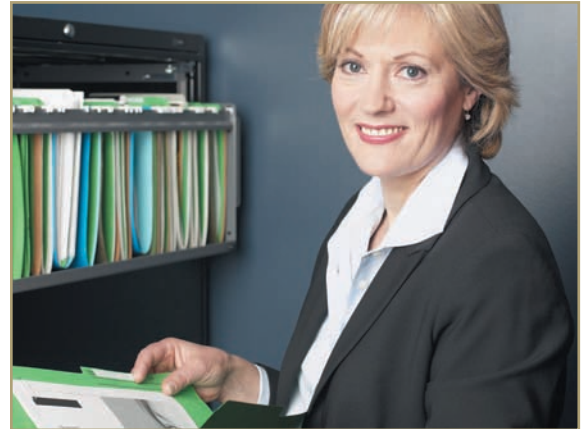

PROFESSIONAL DEVELOPMENT

ONLINE TRAINING

It is estimated that up to 10% of the U.S. healthcare total expenditures are overpayments due to fraud and abuse. Fraud can take many forms ranging from billing for services not rendered to organized schemes in provider identity theft.

This convenient online program was developed in collaboration with IntelStrategy, Inc. to provide you with an in-depth and applied understanding of the knowledge and skills required to effectively detect possible abuse and to flawlessly decipher medical billing and reimbursement documentations. An enhanced understanding of terminologies will also prepare you for in-depth discussions about coding reimbursements, and help equip you with the knowledge to answer healthcare provider questions quickly and accurately.

This certificate program will allow medical coders currently working in the insurance and healthcare industries to further enhance and validate their level of coding expertise. It also provides professional development for existing claims processors and auditors who want to gain professional knowledge of medical coding.

The three online hands-on classes are self-paced, with exercises that make it easy to assess your learning progress. **Open enrollment allows you to begin the classes at your convenience – and access them at any time.**

When you pass the benchmarking exams and complete all three classes, you will receive a certificate from California State University, Fullerton.

REQUIRED CLASSES

Healthcare Fraud and Abuse: Detection & Prevention

(6 hours/0.6 CEUs)

Discussion will focus on the various techniques used in the detection and prevention of fraud, waste and abuse schemes in healthcare.

Application of Medical Codes in Claims Processing I

(11 hours/1.1 CEUs)

Gain essential knowledge in the proper use of ICD-9-CM and CPT codes in processing reimbursement documents.

Application of Medical Codes in Claims Processing II

(11 hours/1.1 CEUs)

Continue the overview on application of codes in the reimbursement process with focus on CPT and HCPCS codes, as well as Correct Coding Initiatives.
